Business Improvement Development Update from Jim Plaisted, Executive Director

What are the plans for
developing
Oakland Ave/Locust St?

What is in the works for
the old Walgreens?

How will current plans
impact the CWNA
residential area?

bring your own questions!

General Meeting
Tuesday, March
18th
7 -8 pm
Urban Ecology Center

Tentative streetscape plans as approved by the University Square BID board of directors:

- ◆ Narrow existing roadway from 60' to 50' between E. Linnwood Ave. and E. Geneva Pl. Goals are to slow down traffic, create wider sidewalks for pedestrian access, and amenities like benches, planters, and new street trees.
- ◆ The BID will be seeking a financial partnership with the City of Milwaukee Dept. of City Development for grant and loan assistance on the project. Project is tentatively estimated at \$500,000.
- ◆ Once the scope is determined and budget finalized, beautification, streetscape furniture, and other design element planning will begin. Planters, street benches, bus shelter at Oakland/Locust, parking lot screening, etc all would need to be carefully selected and maintenance budgets set up.
